New Blood Pressure Machine Available in Reception

We are pleased to inform you that a new blood pressure machine has been installed in the reception area for patient use. This service is provided free of charge to enable our patients to conveniently check and monitor their blood pressure while visiting the surgery. No appointment is needed—just drop by and take control of your health!

Welcome to Dr. Sharmin, Our New General Practitioner

We are excited to welcome Dr. Sharmin to our team as a new salaried General Practitioner. Dr. Sharmin will be available for full-day appointments on Tuesdays and Fridays. Her addition will allow us to increase appointment availability, ensuring that we continue to deliver high-quality care to all our patients.

Online Appointment Booking Now Live

You can now book appointments with our doctors, nurses, physiotherapists, pharmacists, or dieticians through the NHS app or our surgery website. Currently, there are two appointment slots available per day for each doctor, but we plan to expand availability soon to better meet your needs. Book your next appointment online for added convenience!

Wasted Appointments

It is important that you cancel if you are unable to attend your GP or nurse appointment. You can cancel by calling the surgery. We are only able to offer your unwanted appointment if you cancel.

Please be kind to our staff

We aim to treat all our patients courteously and with respect. We will do everything possible to offer a service, which we ourselves would like to receive elsewhere. Please treat our staff with the same respect you would expect to receive. Physical violence, racial, sexual and verbal abuse of our staff will not be tolerated. Offenders will be reported to the police and deregistered.
